

## REMARKS

Pursuant to the requirements of 37 C.F.R. §§ 1.821-1.825, Applicants submit the enclosed Sequence Listing and computer readable form (CRF). The amino acid sequences disclosed in the claims may be found in computer readable form in file 002214.TXT on the enclosed diskette and are presented in the paper copy of the Sequence Listing, also enclosed. SEQ ID NO: 26 has been corrected in both the paper copy and the CRF of the sequence listing to match SEQ ID NO: 26 in claim 3, as called for in the Notification. In addition, the title and the U.S. application filing date have also been corrected. The name of the software has been updated to represent the current status of the sequence list.

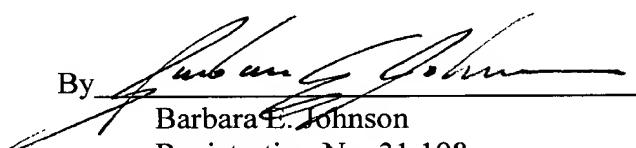

Applicants hereby certify that the information recorded in computer readable form (CFR) supplied on the enclosed diskette as file 002214.TXT is identical to the written Sequence Listing. The material presented in computer readable form is not new matter because it presents sequences the same as those disclosed in the specification, as filed.

The required copy of the Notification is also enclosed.

Applicants believe that the requirements of 37 C.F.R. §§ 1.821-1.825 have been met.

Respectfully submitted,
